What does the Scotland Malawi Partnership do?

- We support anyone in Scotland who has links with Malawi
- Work with organisations, schools, young people, youth groups
- Host many events throughout the year, bring members together
- Offer advice, books and guides and chances to meet other people with an interest in Malawi or a link with Malawi
- We help schools with their partnerships by working closing with MaSP in Malawi
- Dedicated Youth and Schools Officer

IS THERE A RENEWABLES COMPONENT TO YOUR SCOTLAND-MALAWI PROJECT?

If so, the SMP's Renewables Forum would love to hear from you!

We are mapping who is doing what and where in Malawi in Renewables technologies (from solar lantern initiatives, through solar for schools to larger hospital or mini-grid projects) to increase visibility and the opportunities for collaboration.

This co-ordinated approach aims to:

- Be responsive to Malawi's priorities
- Share knowledge & experience from Malawi and Scotland
- Reduce duplication of effort
- Facilitate collaboration where appropriate
- Help tackle complex challenges with a multidisciplinary approach
